# VAGNBYS

DESIGN & LIVING

Firmly constructed objects, beautiful in shape and effective for its purpose. Add ideas exceeding shape and function, and good design is created. Nurtured by respect for sensibility, environment, political correctness and economy, design is a stimulating intellectual exercise, which continues to inspire and develop the modern designer.

Danish industrial designer Marcus Vagnby shows with minimalist aesthetics how mind, function and materials go up in synthesis.

This is experimental modern design in its use of materials and is often inspired by genuine necessity.

His design maintains elements of surprise and deep intellectual beauty, because it relies more on invention than on the development of styles.

Vagnbys Design & Living is made for the modern and conscious consumers who want a modern home where style and elegance is of high priority.

## WINE DECANTIERE

A highly specialized tool for wine lovers. Decants the wine instantly as you pour from the bottle.

A built-in filter protects against wine stone and cork residues. The cap ensures the wine if you want to save it for the next day.

An Outer collar conceals the foil and also the thread of bottles with screw cap.

Made of stainless steel, TPR, PP and silicone.

## THE 7 WONDERS OF THE WINE WORLD

- Better taste
- Easy pouring
- Instant aeration
- Build-in filter
- No-drip edge
- Air tight stopper
- Covers foil edges
- Hides screw treads

# WAITER TOOL

Excellently balanced, the Waiter Tool helps you cut the foil and open your bottles to perfection.

The combination of materials creates a sensational feeling of class and ambience.

Perfectly completed with respect for details.

Made from stainless steel.

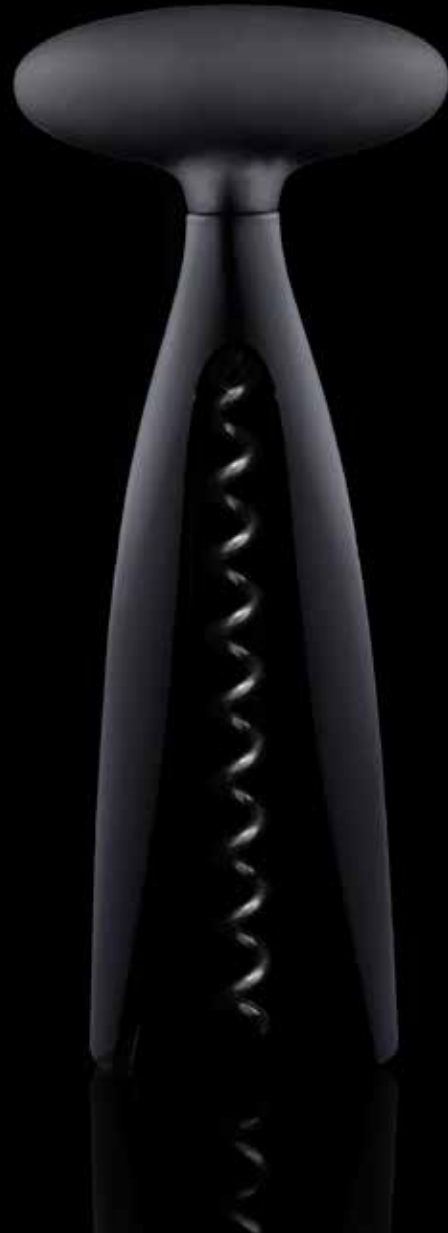

## CORKSCREW

Mat black, the Corkscrew helps you open your wine to perfection.

The combination of materials creates a sensational feeling of class and ambience. Perfectly completed with respect for detail.

Made from stainless steel and rubber coated ABS.

The screw is finished with a non stick surface for high performance. Supplied with a standing base.

## FOILCUTTER

Mat black, the Foil Cutter helps you cut the foil to perfection.

The combination of materials creates a sensational feeling of class and ambience.

Perfectly completed with respect for details.

Made from stainless steel and rubber coated ABS. The cutting wheels are made from hardened stainless steel.

# CHAMPAGNE SET

TWISTER

Champagne Twister effortlessly uncorks champagne and sparkling wines.

The 4-legged design captures and loosens pressurized corks with a simple twist.

Latches to the cork and reduces the danger of flying corks.

The designers play with the shape of the champagne cork has become a piece of modern art of high quality. An icon for the conscious connoisseur.

Made from zinc alloy.

STOPPER

The Stopper eliminates waste by preserving the flavour and finish of previously opened bottles of champagne.

Champagne bottles should be sealed with a stopper in order to keep the champagne bubbles and prevent oxygen from getting into, and spoiling the content.

In the oversized stopper the designer has combined documented principles with modern Scandinavian design, which fully lives up to any champagne lover demands.

Made from aluminium alloy, TPR and ABS.

POURER

The Champagne Pourer ensures controlled pouring, minimal loss of the precious champagne bubbles, as well as a perfect no-drip feature.

Keep the best qualities of the champagne and enjoy this divine drink with your close friends. Scandinavian design for people who cares.

Made from stainless steel and TPR.

## GRAND CARAFE

REMOVABLE BOTTOM SYSTEM

Grand Carafe is the future answer to the best from the past.

Modern design with classic roots.  
For fashionable home environments where style and elegance has high priority.

Just twist the bottom and add ice, fruit or whatever your heart desires, close it and pour the liquid inside from the top.

Made from glass, stainless steel, silicone, TPR and nylon. 0.9 L.

# LIGHT CARAFE

INCLUDING LED LIGHT

Lightened, the carafe brings a whole new dimension to the table.

Carefully illuminated the light elevates the liquid into a magic experience and creates a sensational feeling of a royal class.

Carafe made from glass.  
Top made from mirror finished stainless steel, ABS and silicone. 0.9 L.  
Light device made from ABS and silicone.  
2 pcs CR2032 3V lithium batteries included.  
Made from glass. Frosted.

## MULTI CARAFE

REMOVABLE BOTTOM SYSTEM

Idea and design combined at its best. Filled with favorite specialties, the carafe creates scenarios never seen before. Personalized spirits, vinegars, fruit syrups etc. Endless variations and experiments can now be carried out. Or simply just use with water and ice cubes (ice cubes will stay in the carafe when pouring).

Just twist the bottom and add ice, fruit or whatever your heart desires, close it and pour the liquid inside from the top.

Carafe made from glass.  
Top made from mirror finished stainless steel, ABS and silicone. 0.9 L. Made from glass.

# DIAMOND

## TEALIGHT

Diamond Tealight Holder is hand made from one whole piece of art crystal. Gives the living flame extra dimension and creates wonderful glow and light.

The brilliant form with the sharp diamond facets highlights the designer's visions around living flames and the fashionable home environment where only the best is good enough.

Handmade from lead free art crystal.
