**August 10, 2016**

ESG Operations, Inc.—one of the nation's fastest growing utility operations and public works management companies and the largest in the Southeast—has been recognized as a **Top 200 Environmental Firm** in the country by *Engineering News-Record* (ENR). With close to 600 associates and over \$55 million in annual revenue, ESG is ranked **#126** on the list of 2016 Top Environmental Firms. ESG has been recognized as a “Top Firm” on ENR’s prestigious list since 2011.

ENR is a renowned and respected trade publication for the architecture, engineering and construction industry worldwide. ENR’s annual Top 200 Environmental Firms list ranks the 200 largest publicly and privately held firms based on the previous year’s percentage of gross revenue for environmental services. “2015 was a year of strong growth for ESG. Our improved ranking in this year’s Top 200 list is a reflection of the ongoing desire of ESG to be the premiere city services company in the nation. As an employee-owned firm with a continually expanding market, ESG is poised for significant and strategic growth in the years ahead,” stated John Eddlemon, P.E., ESG Senior Vice President.

“ESG’s ranking on the prestigious ENR Top 200 list is a direct reflection of the dedication and commitment of ESG associates who strive each day to make ESG the premier city services provider. Their unwavering commitment to exemplary service delivery is the foundation of our success. We are excited about the future and remain committed to providing our clients and the communities we serve with innovative, cost-efficient and sustainable solutions for today’s complex environmental and infrastructure challenges,” commented ESG co-founders Clay Sykes, P.E. and Dan Groselle, P.E.

## **ABOUT ESG OPERATIONS, INC.**

As one of the nation's fastest growing full-service utility operations and public works management companies, ESG Operations provides innovative solutions to a wide range of environmental and infrastructure projects. ESG has extensive experience as both design engineers and contract utility operators. This unique blend of skills enables ESG to develop innovative, cost-effective and customized approaches to meet our clients’ specific utility needs. ESG’s corporate headquarters is located in Macon, Georgia, with 20 other offices located across the Southeast.
