

SEA 4000PRO

Effective Nerve Treatment

FDA-cleared and patented by The Synaptic Corporation as the only device of its kind, 4000PRO delivers cutting-edge Synaptic Electronic Activation (SEA) that may be used as an effective, conservative choice. Because it's non-narcotic, non-surgical, the 4000PRO is the safest standalone treatment for chronic nerve conditions.

FDA CLEARED

Proven effective for acute and chronic **PAIN** associated with:

Post-Op Pain	Neuropathy	Phantom Limb	Sports Injuries
Back Pain	Radiculopathy	Plantar Fasciitis	Fibromyalgia
Muscle Spasms	Sleep Disorders	Restless Leg Syndrome	Phantom Nerve Pain

High Patient Success Rate

 In **more than 4 out of 5** patients, treatment resolved or rapidly reduced neuropathy symptoms such as:

Pain	Cramping	Burning
Numbness	Hyper-Sensitivity	Tingling

Results with SEA Technology have been confirmed by nerve conduction and punch tests.

SEA 4000PRO

✓ Easy to use at home	✓ Non-narcotic
✓ Reduce pain and swelling	✓ Non-Surgical
✓ Increase blood flow	✓ Non-Invasive
✓ Natural Pain Relief	✓ Safe
✓ Use on YOUR Schedule Brief treatment sessions as low as 30 minutes	✓ Clinical Treatment The same technology used in the Neuropathy Centers by physicians nationwide
✓ Affordable Rental No large down payments to rent the equipment	✓ Symptom Improvement seen with 3-4 uses
✓ No long term Commitments Hassle Free Equipment returns	✓ Manufacturer support Service and Parts

Synaptic®

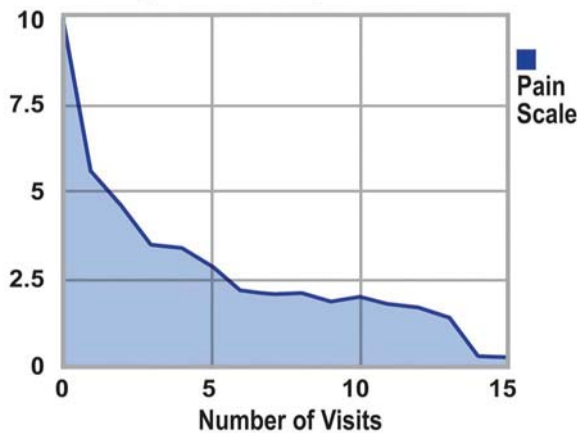

Still the ONLY Patented Neuro-Modulation Electroceutical technology available.

Since the Synaptic Electronic Activation (S.E.A.) delivers therapy at higher, more therapeutic frequency rates than similar electrophysical equipment, it is patented and FDA-cleared as the only device of its kind.

	TENS	Inferential Nerve Stimulation	SEA 4000 Pro
Frequency	Less than 1000 HZ	4000-4400HZ	40,000 HZ - 400 HZ
Wave Form	Rudimentary Biophasic	Simple Sinusoidal	Sophisticated Bio-Identical

The higher frequency combined with a sophisticated electrical wave form that is similar to that of the human body, allows the therapeutic signal to penetrate deeper, affecting change at the nerve increasing nerve function. SEA 4000PRO provides what the nerve needs - energy - and as it is driven in, the patented neuro-modulation impedes - fluid and Hydrogen ions - are driven out. This leads to a dramatic decrease in pain, as shown in the chart below:

Patient Average Pain Scale By Number of Treatments

"The most encouraging and rewarding part of S.E.A. technology is that it is able to treat almost any type of acute and chronic pain. We have several patients who have told us that we were a last resort for them, and that even the most reputable doctors in the country could not help them; however, after being treated with this technology, they were able to enjoy results that have been literally life-changing. We proudly treat conditions ranging from chemotherapy and medication-induced neuropathy to agent orange toxicities and phantom limb pain. It has been exciting, and we have high hopes for continued financial and clinical success."

-Dr. Michael Begely, Certified Functional Medicine Practitioner

Proven treatment success

The Synaptic Electronic Activation SEA 4000PRO is a rewarding alternative to the core treatment choices of most providers involved with chronic pain. Thousands of providers from a wide variety of medical specialties already use S.E.A. with successful results in their practices.

The SEA 4000Pro has the proven results to successfully treat an under-served population of patients who previously had few treatment options for their complex pain conditions. To find out more, please contact us at www.synapticcorporation.com

SEA 4000Pro Overview

1. FDA-Cleared
2. Safe and Effective
3. Proven 87% Effective
4. Easy to Use
5. All Parts Included
6. Manufacturer Service and Support
