

CXO-Cockpit Opens New North American Headquarters Office to Support International Growth

The new office in Atlanta, GA, will serve as the headquarters for CXO Solutions USA, Inc. and supports the strategic focus on North America. The office houses teams for customer support, consultancy, sales and marketing.

ATLANTA, GA. June 2016 - CXO-Cockpit, Global provider of integrated Strategic Performance Reporting solutions for leading Enterprise Performance Management (EPM) systems, today announced the opening of a new office in Atlanta, GA to support international expansion.

"CXO-Cockpit already has a well-established presence in North America with references such as CA Technologies, Smithfield, Summit Materials, Reliance Steel and Lincoln Electric." says Wouter Born, CTO & Acting CEO of CXO Solutions USA, Inc. "By establishing a dedicated office in the United States we are even better equipped to support our customers and to reach our goals of international expansion."

Suite 302 (2nd Floor)
Alpharetta, GA 30005

ABOUT CXO-COCKPIT

CXO-Cockpit is an independent software company founded in 2007 by a team of Finance and Enterprise Performance Management (EPM) professionals with the aim of helping finance teams overcome the limits of Excel-based reporting processes and generic Business Intelligence (BI) tooling, optimize their processes and unleash the full potential of their organizations' EPM systems, information and human talent. Thanks to prebuilt financially-intelligent EPM connectors, fully integrated commentary/narrative and strong reporting process governance, the HTML5 mobile and web-based CXO-Cockpit Strategic Performance solution ensures a true, shared and trusted single point of insight for fast and secure decision-making with full financial control, anywhere and at any time. CXO-Cockpit has an exclusive global customer base of over 80 multinational corporations and provides integrated Strategic Performance Reporting Solutions for all leading Enterprise Performance Management (EPM) systems, including Oracle Hyperion (Enterprise, HFM, and Essbase) SAP (BPC, BW, HANA) Tagetik and IBM (TM1).
